Network Irrigation Controller (NIC):

- * **A.27** - using magnets to mark Crop parameters (JOBS)
- * Easy to program and use, only moving magnets to change Crops
- * Remote start function for use with environmental control systems

Wireless Irrigation Controller (WIC):

- * Designed to be versatile and user friendly
- * Program crops by inputting their location in the bay
- * Enhanced auto programming ability
- * *Step-Stop-Water*
- * Maintain multiple crops under one boom ("L" Shaped Crops)
- * 'Total Control' over crop quality and uniformity
- * Works w/ Network Accumulator to Wirelessly control 32 systems
- *** Call CCS for further details ***
